

Pillars of Grace
A Healing Home

MY VISION

My vision is to create a safe, healing place for people who have experienced incarceration, co-occurring disorders, addiction, alcoholism, or any other situation in life that has kept them from moving forward and living their best life.

I want to see this start small and watch it grow into something available to men, women, and mothers with their children — a safe, healing environment where they can work on rebuilding the four main pillars necessary for stable ground in life.

Physical · Mental · Emotional · Spiritual

— Founder, Pillars of Grace
